

Mahboob Abbas

Show Name

Display Count

Mahoob Abbas	3
Abcd	1
Xyz	0

Write an application to show the UI like above. *Show Name* is the button. Suppose you have array of 10 names.

- Once you click the button it will pick a name randomly from the array and show the name on the top.
- The Display Count list (shown at the bottom left) will show the number of times a particular name is shown so far.
